

## IncrediMail Email Setup Instructions:

1. Open IncrediMail. Click "Tools" then "Accounts"
2. Click the "Add" button.
3. Put a dot in "Let me configure settings myself" and click "Next"
4. Enter your name in "Your name is" box
5. Enter your full email address (johndoe@eotnet.net) in the "Your email address" box and click "Next"  
  
If a screen pops up with "Online search for your server settings... click "Skip" or wait, you will be taken to the next screen automatically.
6. Ensure "POP3" is selected in "My incoming mail server type is"
7. In the "Incoming mail server" box enter: **pop.eotnet.net**
8. In the "Outgoing mail server" box enter: **smtpauth.eotnet.net** and then click "Next"
9. Ensure that your username (first part of your email address, before the @) is entered into the "Username" also enter your password into the "Password" box and click "Finish"
10. Click the "OK" button, and continue to Step 11
11. Double click the account you just created (usually labeled by your email address) this should open its properties
12. Click on the "Servers" tab at the top of the properties window
13. At the bottom under "Outgoing Mail Server" put a check in "My server requires authentication" then click the "More Settings" button
14. Put a dot in "Log on using"
15. In the username box enter your full email address (johndoe@eotnet.net) and the password for that account. Ensure "Remember password" is checked, and click "OK"
16. Click "OK" again at the properties window
17. Close IncrediMail and restart it
18. This completes the setup
