

Outlook Express Email Setup Instructions:

1. Open Outlook Express and click "Tools" then "Accounts"
2. Click the "Mail" tab if it is not already selected
3. Click the "Add" button and select "Mail"
4. Enter your name, and click the "Next" button
5. Enter your email address, and click the "Next" button
6. Next, in the "Incoming mail server" box, enter: **pop.eotnet.net**
7. In the "Outgoing mail server" box, enter: **smtpauth.eotnet.net** and click "Next"
8. Now enter the first part of your email address (the part before the @ symbol) in the "Account name" box, also enter your password in the "Password" box, and click "Next"
9. Click the "Finish" button and continue to Step 10
10. Next, select the account you just created and click the "Properties" button
11. Click the "Servers" tab at the top of the properties window
12. Then, at the bottom under "Outgoing Mail Server" put a check in "My server requires authentication" and click the "Settings" button
13. Put a dot in "Log on using"
14. In the "Account name" box enter your full email address and enter your password in the "Password" box
15. Click "OK"
16. Click "OK" to close the Properties window
17. Finally click the "Close" button
18. Close Outlook Express and restart it
19. This completes the setup
